

MedOne | Your key to the
pharmacy benefit
marketplace

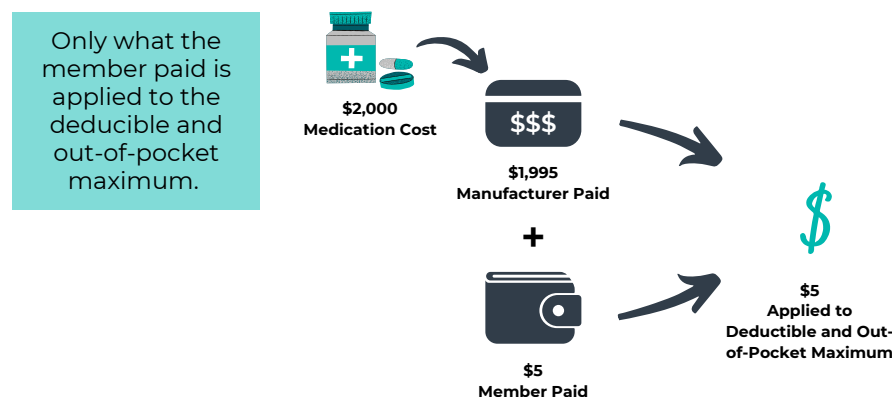

RxMaximize Overview

MedOne CAP (Copay Assist Program) was created to ensure member's spend was correctly allocated to the respective deductible and out-of-pocket (OOP) maximum. Manufacturers assist individuals with coupons for high cost medications that cover the majority of the member's copay or coinsurance. Historically, the manufacturer's coupons were included in the member spend, therefore, members could artificially meet their deductibles and OOP maximum.

With RxMaximize Copay Assist Program

Key Components

- MedOne's RxMaximize Copay Assistance Program ensures that only the amount you spend is allocated to your deductible and out-of-pocket max.
- Only specific specialty medications with available copay assistance are included in the MedOne CAP program.
- Not all network pharmacies participate in the Copay Assist Program.
- To find out if your plan participates or if your medication is included in the MedOne Copay Assist Program, please call 888-884-6331.
